SUMMARY

AI engineer with 7 years of experience building Python backends and LLM applications.
Led the design of multi-agent systems with LangGraph and tool integrations over the Model Context Protocol (MCP).

SKILLS

Python, LangChain, LangGraph, LLM, RAG, Prompt Engineering, FastAPI, Docker, Kubernetes, PostgreSQL, SQL, FAISS, Pinecone, AWS, Git, CI/CD, PyTorch

EXPERIENCE

Lead AI Engineer, Nimbus Analytics (2022 - Present)
- Built a LangGraph agent platform serving 40k requests/day; exposed internal tools as MCP servers.
- Shipped RAG search over 2M documents using FAISS and PostgreSQL with pgvector.

Senior Python Developer, CloudKart (2019 - 2022)
- Designed FastAPI microservices on Docker and Kubernetes (AWS EKS); CI/CD with GitHub Actions.

EDUCATION

B.Tech in Computer Science, Anna University, 2018
